

Health Care Reform Reporting

PrimePay's Health Care Reform Reporting takes the hours and wages reported to the payroll system and produces reports that help businesses address some of the Affordable Care Act's most difficult questions, including:

- Am I an "Applicable Large Employer" and subject to the employer mandate?
- How many Full-Time Equivalent employees does my business have?
- What are the potential ACA-related penalties I may have to pay?
- How do I manage all the various ACA employee measurement periods?
- Is my business eligible for the Small Business Tax Credit?

FREE to all PrimePay payroll clients!
