# The health of business, well planned

## Same quality local care at a lower cost

The Aetna Savings Plus health benefits plans provide members with the same type of coverage as other Aetna medical plans, but at a lower premium cost. Savings are generated through the use of the Savings Plus network, a quality network of local health care providers.

## How do the Savings Plus plans work?

The Aetna Savings Plus plans in Pennsylvania give small businesses the flexibility and choice to best meet their needs. These plans use the Aetna Pennsylvania Savings Plus network.

Each Savings Plus plan has two levels of network benefits:

- Level 1: When members use the Savings Plus network, they realize maximum savings.
- Level 2: When members use non-designated network providers, they will see standard savings and higher member costs.

The Savings Plus plans do not provide benefits for non-network providers.

Members select a primary care physician (PCP) from the network of designated network providers to coordinate care for covered services.

All Savings Plus plans include coverage for doctors' visits, hospital stays, preventive care and more. Refer to pages 4–6 for more details.

## Important plan provisions

Some benefits are subject to limitations or visit maximums. Members or Providers may be required to pre-certify or obtain prior approval for certain services.

For a summary list of limitations and exclusions, refer to page 8. Please refer to **www.aetna.com** for specific Summary of Benefits and Coverage documents. Or for more information, please contact your licensed agent or Aetna sales representative.

<sup>1</sup>Embedded – No one family member may contribute more than the individual deductible/out-of-pocket limit amount to the family deductible/out-of-pocket limit. Once the family deductible/out-of-pocket limit is met, all family members will be considered as having met their deductible/out-of-pocket limit for the remainder of the plan year.

Non-Embedded – The individual deductible/out-of-pocket limit can only be met when a member is enrolled for self only coverage with no dependent coverage. The family deductible/out-of-pocket limit can be met by a combination of family members or by any single individual within the family. Once the family deductible/out-of-pocket limit is met, all family members will be considered as having met their deductible/out-of-pocket limit for the remainder of the plan year.

Deductible credit and deductible carryover do not apply.

<sup>2</sup>Emergency Room: Copay is waived if admitted. Coinsurance is not waived if admitted.

<sup>3</sup>Rx Plan Provisions:

- T1A = Value drugs. T1 = Preferred generic drugs.
- Contraceptives and diabetic supplies included.
- If the physician prescribes or the member requests a covered brand name prescription drug when a generic prescription drug equivalent is available, the member will pay the difference in cost between the brand name prescription drug and the generic prescription drug equivalent plus the applicable cost-sharing. The cost difference between the generic and brand does not count toward the out-of-pocket limit.
- Precertification and step therapy applies.
- Not all drugs are covered. It is important to look at the Drug List (Aetna Value Plus Formulary) to understand which drugs are covered.
