

# Confused About Medicare & Your Options?

Our Experts Can Help You Make Sense of Medicare

Medicare is a federal health insurance program for people who are 65 or more years old or have certain qualifying disabilities. However, the complexities of the Medicare marketplace often leave consumers wondering if they have made the right decisions after enrollment.

## Our Approach to Medicare

### Education

We guide you through and help you understand the difference between Medicare Parts A & B as well as Medicare Advantage and Supplemental Plans to ensure you have the right coverage.

### Review Plan Options

There are many carriers who have Medicare plans, our experts can help you shop around and find the lowest cost plan that still fits your specific needs.

### Enrollment

We remove the stress of enrollment and works with you to complete your paperwork correctly and submit it on time.

### Annual Review

Each year, we review your specific situation and identify if your current coverage needs to be expanded, reduced, or if a more cost effective option is available.
